DETAILED ACTION

Allowable Subject Matter

Claims 2-21, 23-28, 30-33,35-37 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 3, 12, 14, 25, 35, 36, with the allowable features being; wherein the first partition is formed from polydimethylsiloxane. (claim 3); a second component capable of controlling a second parameter of the second fluidic medium(claim 12); a fourth partition that is coupled to the third partition, wherein a third cavity is formed in between the third partition and the fourth partition(claim 14); wherein at least one parameter of each of the at least one fluidic medium is controllable by at least one of means for providing fluid flow and means for varying fluid pressure(claim 25); manner that substantially encloses the second cavity, wherein the second structure includes the second cavity and a third cavity(claim 35); to one another and forming a cavity, wherein the flexible layer is optically transparent and is formed from polydimethylsiloxane (claim 36). Therefore claims 2-21, 23-28, 30-33,35-37 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
